### ***July revised numbers improve; August preliminary figures strong***

*State posts eighth straight month of year-over-year improvement*

INDIANAPOLIS, Ind. – Today the Indiana Department of Workforce Development released revised July and preliminary August **payroll employment figures** for the state.

Compiled in conjunction with the U.S. Bureau of Labor Statistics, payroll employment is calculated through a monthly survey of 7,500 Hoosier employers and is based on reported payroll figures. It is an estimate of non-agricultural jobs in Indiana businesses and does not include self-employed or agricultural workers. The estimate is taken each month during the week of the 12<sup>th</sup>.

Revised figures for **July** show improvement over the preliminary estimates. July's revised *seasonally adjusted* numbers indicate that the state actually posted 2,912,000 jobs for the month, 200 more than reported by the initial estimate. July's *non-seasonally adjusted* figure was also revised, improving by 200 jobs to reach 2,878,600 total jobs.

In the same report, preliminary data for the month of **August** was released. The state's preliminary *seasonally adjusted* payroll employment was 2,913,900 jobs for the month. The figure marks a 1,900-job increase from the previous month and a net gain of 6,300 jobs when compared to August 2003. The state's preliminary *non-seasonally adjusted* figure reflected 2,897,800 jobs in August, 19,200 more jobs than existed in July and 7,100 more than existed in August 2003.

At the same time, the nation's preliminary *seasonally adjusted* payroll employment figure grew by 144,000 jobs in August to reach 131.5 million jobs. The country's preliminary *non-seasonally adjusted* payroll employment figure for August totaled 131.2 million jobs, unchanged from July's revised number.

"The performance of Indiana's economy throughout the summer has been strong as we saw job creation in virtually every sector" said Alan Degner, commissioner of the Indiana Department of Workforce Development. "This is the eighth consecutive month we've posted numbers showing we are doing better than the same time last year. Its an encouraging trend, and one we expect to see continue throughout the fall."

#### Seasonally adjusted figures:

In August, Indiana's economy gained 1,900 jobs from July (revised), a net gain of 6,300 jobs when compared to August 2003. According to the preliminary August 2004 estimate the total number of jobs in the state, after the seasonal adjustment, totaled 2,913,900. The August figure is up from 2,912,000 in July and 2,907,600, which was recorded in August of 2003.

## July Revised and August preliminary payroll employment figures/add 1

Looking at August's preliminary seasonally adjusted numbers by **industry super-sector**, Indiana's goods-producing sector reported employment of 727,100 in August, virtually unchanged from July (revised), but up 5,000 jobs from August 2003. Of that figure, the construction sector saw employment grow by 400 jobs over the month to reach 151,800 jobs, 7,100 more than existed in August 2003. At the same time, the manufacturing sector shed 500 jobs from July to August to total 568,000 jobs, 2,200 fewer jobs than existed a year ago.

Indiana's service-providing sector reported employment totaling 2,186,800 in August. This figure is up 2,000 jobs from July's revised seasonally adjusted number and 1,300 more than compared to August of 2003. Of that, the professional and business service sector grew by 5,100 jobs compared to August 2003. The leisure and hospitality sector also reported growth adding 2,300 jobs over the month to reach a total of 274,700 positions in August. The state's education and health services sector reported 371,000 total jobs for the month, 3,300 more jobs than existed in the sector the same time last year.

(NOTE: ONLY LARGE INDUSTRY 'SUPERSECTORS' CAN BE DESCRIBED IN SEASONALLY ADJUSTED TERMS. FOR MORE SPECIFIC DETAIL ON INDUSTRIES, USE NON-SEASONALLY ADJUSTED NUBERS)

### Non-Seasonally adjusted figures:

In August Indiana's economy gained 19,200 net new over July (revised), to reach an employment level of 2,897,800 for the month. The August preliminary non-seasonally adjusted payroll estimate shows 7,100 more jobs than compared to last year.

Using preliminary non-seasonally adjusted figures to look at the state's **industry sectors**, Indiana's goods-producing sector reported employment of 739,400 in August, up 5,100 over both July and August 2003. Of that figure, the construction sector saw employment grow by 400 jobs from July to August to reach a total of 160,800 jobs, 7,200 more than existed in August 2003. The manufacturing sector reported 571,300 jobs in August, an increase of 4,700 over July, but 2,200 fewer than existed in August of last year.

Indiana's service-providing sector reported employment totaling 2,158,400 in August, up 14,100 from July and 2,000 more jobs when compared to August of 2003. Of that, the professional and business service sector reached 263,200 jobs in August, 5,000 more than existed in the same time last year. The leisure and hospitality sector grew by 3,600 jobs from July to August to reach 285,000 total jobs.

The government sector, which reported 390,300 jobs for the month, relinquished 3,000 positions compared to a year ago, but added 8,000 over the previous month. Retail trade lost 600 jobs over the month and 3,000 over the year to hit 330,800 total jobs in August.

Looking at preliminary job numbers in the state's **Metropolitan Statistical Areas** (MSAs), the Bloomington area saw a net gain of 2,400 jobs in August as compared to a year ago. The Elkhart-Goshen MSA's employment data grew by 1,400 jobs from July to August, but had 200 fewer positions compared to August 2003. The Evansville area saw a net loss of 500 jobs over the year, while the Fort Wayne MSA reported a gain of 2,800 compared to the same month last year and 3,600 from July to August. The Gary-Hammond MSA gained 800 jobs over the month, but lost 1,200 over the year. The Indianapolis MSA grew 8,100 jobs from July to August but had 7,000 fewer net jobs than August 2003. Kokomo's MSA gained 400 jobs over the year, while the Lafayette MSA added 2,900 since August 2003. From July to August the Muncie's MSA grew by 200 jobs, but still had 1,200 fewer jobs than last year. The South Bend-Mishawaka and Terre Haute MSAs both reported year-over-year growth of 2,000 and 1,200 jobs respectively.

## July payroll employment figures/add 2

Through its various programs and initiatives, the Indiana Department of Workforce Development is charged with continually improving the Hoosier workforce by assisting companies to create new jobs and improve employee skills. The agency offers a variety of training and educational grants, partners with the state's 27 WorkOne Centers, administers the unemployment insurance system, provides labor market information, assists employers with preparing workers for layoffs and, closures and operates a statewide job placement service.

For more information on Indiana's labor market, contact the Indiana Department of Workforce Development at 1-888-WorkOne, or visit the web site at [www.workforce.IN.gov](http://www.workforce.IN.gov).

### Technical Notes:

- Payroll employment is calculated through a monthly survey of 7,500 Hoosier employers and is based on reported payroll figures. It is an estimate of non-agricultural jobs in Indiana businesses and does not include self-employed or agricultural workers.
- The survey that calculates the payroll employment estimate is conducted by the U.S. Bureau of Labor Statistics and is conducted during the week of the 12<sup>th</sup> of the month.
- In calculating employment figures, two different types of calculations are provided. The first, *non-seasonally adjusted*, provides information without taking into account the effects of seasonal trends. In calculating the *seasonally adjusted* information, employment that follows more or less a regular pattern each year, including holiday or summer employment is factored out of the estimate. The adjustments make it easier to observe the cyclical and other non-seasonal movements.
- For most accurate analysis, please use revised data sets and not preliminary estimates
